As a lay person out living my life I see rude behavior everywhere. We live in a "ME" society. As a Flight Attendant I cannot imagine what it would be like on an airplane with a bunch of I don't care about anyone but myself loud mouths on cell phones! The airplane is the last place you can go to get away from self absorbed cell phone users! I ask please use common sense when thinking about this! I tell you it will be a disaster! Thank you for your time. Brenda Bartus
